# Winning the war on fleas - Home

I have spent the last 25 years solving flea problems for pet owners. I have discovered that once I teach you about fleas, and how to control them, you can be rid of fleas forever!

If your answer is yes, then read on because you are about to discover how to put an end to your pet's flea problem forever.

1) I only recommend scientifically proven effective and safe solutions. These are products and strategies my clients use every day. Common brands like Frontline, Advantage, Advantix, Advocate, Program, Sentinel, Revolution, Comfortis, Capstar, Permethrin are discussed in detail. I give specific strategies to deal with all four life stages of fleas. I provide information on techniques to rid your pet, your home and your car of fleas. I provide a product comparison table for cats and dogs separately to compare all the common products listed above.

2) If you want a new age, all organic, all natural flea control solution (that won't work) - that's not what I am about - you should click your back button now and keep looking.

Have you noticed that each year the flea season is a little worse than last year, and that the fleas seem harder to kill, or that the products that used to work are no longer effective? Do you feel like you are wasting hundreds of dollars a year on flea control?

I am a veterinarian with two Veterinary Degrees (B.V.Sc., B.Vet.Biol.). I have worked for two global animal health companies (CIBA-GEIGY and Mars Inc.) with roles in technical services, customer service, sales and marketing, in a Veterinary Dermatologicals company (Dermcare Vet) along side a Veterinary Dermatologist, and in my own private practice.

Because of where I live, and in my job as a practicing veterinarian, I talk to clients...
